GAME MODES

Each of *Madden NFL 99's* game modes features a variety of setup and gameplay options. Many options are self-explanatory (or are explained in *Starting an Exhibition Game* on ► p. 9). Those that aren't are discussed in the following sections.

SEASON AND CUSTOM SEASON

In Season mode test your team's consistency and endurance in a complete NFL season. The **SEASON** option from the Main menu takes you to the start of a new NFL season. After you select **SEASON**, choose whether or not you want to activate the Modified Rosters option, then the Season Week screen appears for Week 1.

- ❑ You can also create a Custom Season in which you customize your divisions, using current and classic teams, to create a league of your own.
- ❑ When creating a custom league, you cannot put the same team in two divisions. Before placing a current team in a different division, you must replace it with a classic team.

FRANCHISE

The **FRANCHISE** option from the Main menu allows you to take a team through as many as 15 seasons. You play the games and manage the rosters. Player ratings fluctuate from season to season based on performance, age, and injury. Also, players retire in Franchise mode based on age and/or injury.

FRANCHISE YEAR SCREEN

After you choose your team and enter a coach's name, you proceed to the Franchise Year 1 screen. Many of the options for this screen are the same as the Season Week screen (► p. 15). Unique items are explained below.

LEAGUE NEWS

View roster moves league-wide or team-by-team.

COACH RATING

Madden NFL 99 tracks your current record, career record, and other stats. Pay attention to the messages in the coach's rating screen—if you don't live up to expectations, you may be fired.

FRONT OFFICE

Same as in Season mode except you can't create players.

SEASON END MENU IN FRANCHISE MODE

In addition to providing you with many of the same options as the Season Week screen, the Season End menu gives you options to conduct all off-season player moves. After each type of roster management procedure (e.g., re-signing players), you return to the Season End menu and have an option to conduct the next type of player move.

RETIRE PLAYERS

After viewing any of the other options on the Season End screen, select **RETIRE PLAYERS** to continue. A pop-up box informs you if any players have retired.

RE-SIGN PLAYERS

The next order of business at the end of a Season is to re-sign your current players whose contracts have expired. Unsigned players are released.

TIP

Players do not always sign based on the Expected Salary. Some players are interested in the flexibility and immediate return of a one-year deal, while others might settle for less money if it comes with a long-term deal. Experiment with different contract structures to build your franchise.

PRE-SEASON TRADING

After you finish re-signing or releasing your players, you return to the Season End menu. A **PRE-SEASON TRADING** option appears at the bottom of the menu. If other teams offer you any trades, the Proposed Trades screen appears.

FREE AGENT SIGNING

During the Free Agent Signing period, you can bid against other teams for free agents. As the free agent signing period progresses, all teams bid on free agents. When a player receives an offer, the offer is listed next to his name. If he agrees to the offer, the NFL team name appears next to his name.

- ☐ When a user makes an offer, a red dot appears by the player's name. If the red dot starts to blink, then another team has made a higher offer.

NFL DRAFT

Franchise mode offers you a 4-round draft. When the Draft is over (after 4 rounds or press **START** to end it manually), and after you've signed or released your draft picks, you return to the Season End menu. The Start New Season option is available.

TOURNAMENT

The **TOURNAMENT** option from the Main menu takes you to the start of a new 8- or 16-team single-elimination tournament.

- ☐ The Tournament Menu allows you to choose the games you want to play, and view team and individual stats.

FANTASY DRAFT

The FANTASY DRAFT option from the Main menu allows you to complete a 48-round NFL-style draft. Put a team together then play a 4-, 8-, or 16-team tournament.

❑ The computer randomly sets the draft order.

➡ During the draft, press **START** at any time if you want the CPU to complete the draft.

After the draft, the Fantasy Main menu appears. The options available on this screen include PLAY WEEK, TEAM STANDINGS, STATISTICS, and INJURY REPORT (For more info on these options, ➤ *Season Week Screen* on p. 15). Other options include VIEW ROSTER, REORDER ROSTER, and TRADE PLAYER. (➤ *Front Office Menu* on p. 20.)

✓ **NOTE:** A human player can control any fantasy team during gameplay even if the computer controlled the team during the draft.

PRACTICE

✓ **NOTE:** Madden NFL 99 allows you to sub a player away from his natural position but only up to a certain extent. For instance, a QB can play as a receiver but not as a lineman.
